EEG 066SI6

Index of Subjects

VOLUME 66, 1987

(Abstracts from Society Proceedings are not included)

Absences
— electrical field during petit mal absences, 457
Age
— auditory and somatosensory ERPs, 409
— EEG abnormalities in normal aging, 1
— vigilance deficit of aged rats, 196
Alcohol abstinence and N2 component, 121
Alpha rhythm
— in olfactory tubercle, 185
— transverse relation of alpha rhythm, 191
Ambulatory recording
— cassette EEG screening, 219
— computer database of EEG signals, 82
— video cassette EEG telemetry, 579
Anoxia and SEPs, 15
Anxiety disorder and visual EEG response, 337
Armadillo
— electrical activity of olfactory tubercle, 185
Arousal in aged rats, 196
Artifact elimination from EEG, 89
Attention
— effect on steady-state AEPs, 145
— visual EEG response in generalized anxiety, 337
Auditory responses
— age and ERPs, 409
— and cortical lesions, 108
— BAEPs, *see* Brain-stem auditory potentials
— cortical origin of the 40 Hz AEPs in man, 539
— during wakefulness and sleep, 571
— effects of attention, 145
— habituation, 160
— middle-latency AEPs, 108
— obtained by cross-correlation, 529
— peripheral origin of BAEP wave II, 29
— steady-state AEPs, 145
— to amplitude modulated sounds, 56
Automated sleep scoring, 448
Averaging and voluntary control of heart beat, 93

BAEPs, *see* Brain-stem auditory potentials
Benzodiazepines
— ethanol effect on EEG spectra in monkeys, 317
— microcomputer EEG and diazepam, 331
Bereitschaftspotentials and Parkinson, 263
Beta rhythms and deteriorating vigilance, 137
Binaural interactions in the cat and man, 547
Book reviews, 97, 205, 335, 586
Brain-stem auditory potentials
— click phase, 420
— comparison in the cat and man, 547
— derived response, 167
— forward masking and enhancement, 427
— peripheral origin of BAEP wave II, 29
— vector analysis, 420
— 3C-Lissajous' trajectory, 167

Calcium channels and PDs, 43
Cardio-respiratory arrest and SEPs, 15
Cerebral blood flow and hemispheric asymmetries, 515
Cerebral cortical lesions, *see* Lesions
Childhood
— REM sleep latency in mentally retarded children, 512
— stance and gait in children, 244
Circadian cycles, sleepiness on the job, 502
Cocaine effects on ERP and performance, 34
Cochlear nucleus
— AEPs to amplitude modulated sounds, 56
Cognitive processes and aging, 409
Coherence
— interhemispheric coherence and corpus callosum, 8
— transverse relation of the alpha rhythm, 191
Coma resuscitation and SEPs, 15
Computer database of ambulatory EEG signals, 82
Computed tomography
— in normal aging, 1
— EEG electrode placement, 376
Conduction velocity
— intersession stability of SEPs, 281
— motor nerve refractory period in man, 225, 235
— Strümpell's familial spastic paraplegia, 132

0013-4649/87/$03.50 © 1987 Elsevier Scientific Publishers Ireland, Ltd.

— the double collision technique, 225, 235
Contingent negative variation
— and preceding slow potential shifts, 71
— cocaine effects on performance, 34
Corpus callosum and interhemispheric coherence, 8
Cortical
— and subcortical trigeminal EPs, 253
— and thalamic activity in scrapie-rats, 307
— lesions and middle-latency AEPs, 108
— SEP generators in the cat, 299

Database of ambulatory EEG signals, 82
Data processing
— EEG in monozygotic and dizygotic twins, 489
— microcomputer EEG and diazepam, 331
— wave form decomposition technique and VEPs, 200
— *see also* Spectral analysis
Daytime sleepiness, *see* Sleepiness
Development, stance and gait in children, 244
Diabetes
— and proximal sensory conduction, 25
— VEP changes after renal transplantation, 101
Digital filtering
— comparison of the cat and human BAEPs, 547
Dopamine
— Bereitschaftspotential and Parkinson, 263
Dreaming
— electrophysiological evidence, 383
— frontal mid-line theta rhythm, 66
Drugs
— cocaine effects on ERP and performance, 34
— ethanol effect on EEG spectra in monkeys, 317
— L-DOPA and parkinsonism, 263
— microcomputer EEG and diazepam, 331
— N2 component in abstinent alcoholics, 121

Early components, *see* Short latency components
EEG
— abnormalities in normal aging, 1
— alpha rhythm, 191
— ambulatory cassette EEG screening, 219
— ambulatory video EEG telemetry, 579
— and corpus callosum, 8
— and deteriorating vigilance, 137
— and sleepiness on the job, 502
— Bereitschaftspotential and Parkinson, 263
— CNV and preceding slow potential shifts, 71
— cocaine effects on performance, 34
— computer database of ambulatory EEG signals, 82
— during petit mal absences, 457
— EKG artifact elimination, 89
— electrode placement, 376
— ethanol effect in monkeys, 317
— evidence for dreaming, 383
— foramen ovale electrode, 327
— frontal mid-line theta rhythm during sleep, 66
— in aged rats, 196
— in generalized anxiety disorder, 337
— in mentally retarded children, 512
— in monozygotic and dizygotic twins, 489
— in scrapie-rats, 307
— in siblings of epileptics, 483
— interhemispheric coherence, 8
— mapping by surface spline interpolation, 75
— microcomputer EEG and diazepam, 331
— of olfactory tubercle, 185
— transverse relation of the alpha rhythm, 191
EKG
— voluntary control of heart beat, 93
— artifact elimination from EEG, 89
Electrodes
— EEG electrode placement, 376
— safety of the foramen ovale electrode, 327
EMG, stance and gait in children, 244
Epilepsy
— ambulatory cassette EEG screening, 219
— calcium channels and PDs, 43
— classification of adult epilepsies, 211
— computer database of ambulatory EEG signals, 82
— electrical field during petit mal absences, 457
— interictal paroxysmal activities, 211
— limbic neuronal epileptic firing, 467
— neuromagnetic study of focal epilepsy, 358
— safety of the foramen ovale electrode, 327
— temporal lobe epilepsy, 467
ERGs and VEPs in Parkinson's disease, 349
Ethanol
— effect on EEG spectra in monkeys, 317
— N2 component in abstinent alcoholics, 121
Event-related potentials
— and aging, 409
— and preceding slow potential shifts, 71
— and voluntary control of heart beat, 93
— cocaine effects on performance, 34
— habituation of auditory ERPs, 160
— in abstinent alcoholics, 121
— in schizophrenics, 369
Evoked potentials
— auditory, *see* Auditory responses
— BAEPs, *see* Brain-stem auditory potentials
— cortical and subcortical trigeminal EPs, 253
— EPs, CBF and hemispheric asymmetries, 515
— mapping by surface spline interpolation, 75
— somatosensory, *see* Somatosensory potentials
— stance and gait in children, 244
— to pattern, *see* Pattern
— visual, *see* Visual evoked potentials
Excitatory potentials and spinal cord stimulation, 275
Eye movements and dreaming, 383

Field
— electrical field during petit mal absences, 457
— somatosensory evoked magnetic fields, 391
Focal EEG abnormalities in normal aging, 1

Focal epilepsy
— calcium channels and PDs, 43
— limbic neuronal epileptic firing, 467
— neuromagnetic study of focal epilepsy, 358
— temporal lobe epilepsy, 467
Foramen ovale electrode, 327
Frequency, *see* Spectral analysis
Frontal cortex
— mid-line theta rhythm during sleep, 66
— vigilance deficit of aged rats, 196

Gait and stance in children, 244
Generators
— cortical origin of the 40 Hz AEPs in man, 539
— electrical field during petit mal absences, 457
— MEG and the form of the head shape, 286
— of cortical SEPs in the cat, 299
— peripheral origin of BAEP wave II, 29
— somatosensory evoked magnetic fields, 391
Genetics
— EEG in monozygotic and dizygotic twins, 489
— EEG patterns in siblings of epileptics, 483
— Strümpell's familial spastic paraplegia, 132

Habituation of auditory ERPs, 160
Heart rate averaging and voluntary control, 93
Hemispheric
— EPs, CBF and hemispheric asymmetries, 515
— interhemispheric coherence, 8
Hemodialysis and VEP changes, 101
Hereditary disorders, *see* Genetics
Hippocampus
— temporal lobe epilepsy, 467
— vigilance deficit of aged rats, 196

Interictal paroxysmal activities and vigilance, 211
Intracranial recording
— peripheral origin of BAEP wave II, 29
Ischemia
— generators of cortical SEPs in the cat, 299

Ketamine blockade of spreading depression, 440

Lesions
— cortical lesions and AEPs, 108
— SEPs after resuscitation, 15
Limbic neuronal firing and temporal lobe epilepsy, 467
Lissajous' trajectories of BAEP derived response, 167

Magnetic somatosensory fields, 391
Magnetoencephalogram
— and the form of the head shape, 286
— cortical origin of the 40 Hz AEPs in man, 539
— in focal epilepsy, 358
Mapping by surface spline interpolation, 75
Maturation
— stance and gait in children, 244

Mental processes
— frontal mid-line theta rhythm during sleep, 66
— retardation, *see* Retardation
Middle-latency responses
— AEPs and cortical lesions, 108
— effects of attention on steady-state AEPs, 145
Mismatch negativity during wakefulness and sleep, 571
Models
— AEPs to continuous amplitude modulated sounds, 56
— mapping by surface spline interpolation, 75
Monitoring
— ambulatory cassette EEG screening, 219
— ambulatory video EEG telemetry, 579
— computer database of ambulatory EEG signals, 82
— contact lens stimulator for surgical monitoring, 322
— EEG and sleepiness on the job, 502
Morphine
— cocaine effects on ERP and performance, 34
— ethanol effect on EEG spectra in monkeys, 317
Motor cortex
— paroxysmal depolarizations and calcium channels, 43
Motor nerve
— refractory period in man, 225, 235
— the double collision technique, 225, 235

Nerve
— intersession stability of SEPs, 281
— motor nerve refractory period in man, 225, 235
— proximal sensory conduction in diabetics, 25
— the double collision technique, 225, 235
— *see also* Conduction velocity
Neurological disorders
— Bereitschaftspotential and Parkinson, 263
— cortical and thalamic EEG in scrapie-rats, 307
— N2 component in schizophrenics, 369
— VEPs and ERGs in Parkinson's disease, 349
Neuropathies
— proximal sensory conduction in diabetics, 25
Newborn
— interhemispheric coherence and corpus callosum, 8
Non-cephalic reference
— EKG artifact elimination from EEG, 89
N100, cocaine effects and performance, 34
N200 component in schizophrenics, 369

Oddball paradigm
— age, auditory and somatosensory ERPs, 409
Olfactory tubercle
— electrical activity of olfactory tubercle, 185
Ophthalmology
— contact lens stimulator for surgical monitoring, 322

Pain
— spinal cord stimulation and EPSP in man, 275
Paraplegia
— Strümpell's familial spastic paraplegia, 132
Parkinsonism

— Bereitschaftspotential and L-DOPA, 263
— VEPs and ERGs, 349
Paroxysmal depolarization and calcium channels, 43
Paroxysmal discharges
— classification of adult epilepsies, 211
— during sleep and waking, 211
Pattern reversal VEPs, test-retest variability, 401
Performance
— cocaine effects on ERP, 34
— EEG and deteriorating vigilance, 137
Petit mal, *see* Epilepsy
PGO waves and dreaming, 383
Photic stimulation and surgical monitoring, 322
Photosensitive epilepsy
— EEG patterns in siblings of epileptics, 483
Pons
— peripheral origin of BAEP wave II, 29
Potassium
— ketamine blockade of spreading depression, 440
Power spectral analysis
— transverse relation of the alpha rhythm, 191
Prognosis
— SEPs after resuscitation, 15
Psychological correlations
— EEG abnormalities in normal aging, 1
P300
— age, auditory and somatosensory ERPs, 409
— cocaine effects on ERP and performance, 34
— N2 component in schizophrenics, 369

Reaction time in abstinent alcoholics, 121
Recording methods
— ambulatory video EEG telemetry, 579
Reflex
— spinal cord stimulation and EPSP in man, 275
— stance and gait in children, 244
Refractory period
— of motor nerve in man, 225, 235
— the double collision technique, 225, 235
Renal transplantation and VEP changes, 101
Resuscitation and SEPs, 15
Retardation and REM sleep latency, 512

Saccades and dreaming, 383
Scalp recording
— topography of VEPs, 200
— transverse relation of the alpha rhythm, 191
Schizophrenia
— N2 component in schizophrenics, 369
Seizure
— classification of adult epilepsies, 211
— limbic neuronal firing, 467
Self-initiated stimulation and auditory ERFs, 160
Sensory conduction in diabetics, 25
Short latency components
— AEPs obtained by cross-correlation, 529
— SEPs after resuscitation, 15
Simulation
— MEG and the form of the head shape, 286
Sleep
— automated sleep scoring, 448
— color density spectral array, 582
— electrophysiological evidence for dreaming, 383
— evolution of sleep structure, 175
— frontal mid-line theta rhythm during sleep, 66
— interhemispheric coherence and corpus callosum, 8
— REM sleep latency in mentally retarded children, 512
Sleepiness on the job and EEG, 502
Sleep-waking
— and AEPs, 571
— interictal paroxysmal activities, 211
Slow potentials
— CNV and preceding slow potential shifts, 71
— ketamine blockade and spreading depression, 440
Slow virus diseases
— cortical and thalamic EEG in scrapie-rats, 307

Table of Contents

VOLUME 66, 1987

CLINICAL SECTION

MAIN ARTICLES

Anterior temporal focal abnormalities in EEG in normal aged subjects; correlations with psychopathological and CT brain scan findings (EEG 01761)
by S.L. Visser, C. Hooijer, C. Jonker, W. Van Tilburg and W. De Rijke (The Netherlands) 1

Coherence patterns of the infant sleep EEG in absence of the corpus callosum (EEG 01748)
by J.B.M. Kuks, J.E. Vos and M.J. O'Brien (The Netherlands) 8

Prognostic value of early cortical somatosensory evoked potentials after resuscitation from cardiac arrest (EEG 01781)
by E. Brunko and D. Zegers de Beyl (Belgium) 15

Visual evoked potential changes following renal transplantation (EEG 03124)
by J.J. Brown, R.L. Sufit and H.W. Sollinger (U.S.A.) 101

Effects of cortical lesions on middle-latency auditory evoked responses (MLR) (EEG 03032)
by P. Kileny, D. Paccioretti and A.F. Wilson (U.S.A. and Canada) 108

The N_2 component of the event-related brain potential in abstinent alcoholics (EEG 03048)
by B. Porjesz, H. Begleiter, B. Bihari and B. Kissin (U.S.A.) 121

Two distinct classifications of adult epilepsies: by time of seizures and by sensitivity of the interictal paroxysmal activities to sleep and waking (EEG 01796)
by A. Autret, B. Lucas, F. Laffont, Ph. Bertrand, E. Degiovanni and B. De Toffol (France) 211

Supervision of ambulatory cassette EEG screening: a strategy based on the temporal distribution of epileptiform abnormalities (EEG 03152)
by S.L. Bridgers and J.S. Ebersole (U.S.A.) 219

The double collision technique: a new method for measurement of the motor nerve refractory period distribution in man (EEG 01814)
by D.A. Ingram, G.R. Davis and M. Swash (U.K.) 225

Motor nerve conduction velocity distributions in man: results of a new computer-based collision technique (EEG 01820)
by D.A. Ingram, G.R. Davis and M. Swash (U.K.) 235

Afferent and efferent control of stance and gait: developmental changes in children (EEG 01832)
by W. Berger, J. Quintern and V. Dietz (F.R.G.) 244

Subcortical and cortical responses following infraorbital nerve stimulation in man (EEG 01780)
by M. Leandri, C.I. Parodi, J. Zattoni and E. Favale (Italy) 253

The Bereitschaftspotential, L-DOPA and Parkinson's disease (EEG 01843)
by J.P.R. Dick, R. Cantello, O. Buruma, M. Gioux, R. Benecke, B.L. Day, J.C. Rothwell, P.D. Thompson and C.D. Marsden (U.K.) 263

Postsynaptic potentials in motoneurons caused by spinal cord stimulation in humans (EEG 03196)
by K. Guru, A. Mailis, P. Ashby and G. Vanderlinden (Canada) 275

EEG topography of response to visual stimuli in generalized anxiety disorder (EEG 03180)
by C. Grillon and M.S. Buchsbaum (U.S.A.) 337

Alteration of visual evoked potentials and electroretinograms in Parkinson's disease (EEG 01788)
by I. Gottlob, E. Schneider, W. Heider and W. Skrandies (F.R.G.) 349

Study of focal epilepsy by multichannel neuromagnetic measurements (EEG 01808)
by G.B. Ricci, G.L. Romani, C. Salustri, V. Pizzella, G. Torrioli, S. Buonomo, M. Peresson and I. Modena (Italy) 358

0013-4649/87/$03.50 © 1987 Elsevier Scientific Publishers Ireland, Ltd

The N2 component of the event-related potential in schizophrenic patients (EEG 03115)
by M. Brecher, B. Porjesz and H. Begleiter (U.S.A.) 369
Cerebral electrical fields during petit mal absences (EEG 03223)
by E. Rodin and O. Ancheta (U.S.A.) 457
Firing patterns of human limbic neurons during stereoencephalography (SEEG) and clinical temporal lobe seizures (EEG 03236)
by T.L. Babb, C.L. Wilson and M. Isokawa-Akesson (U.S.A.) 467
Interdependence of different genetic EEG patterns in siblings of epileptic patients (EEG 01869)
by W.K. Baier and H. Doose (F.R.G.) 483
Genetic aspects of the EEG: an investigation into the within-pair similarity of monozygotic and dizygotic twins with a new method of analysis (EEG 01718)
by H.H. Stassen, G. Bomben and P. Propping (Switzerland and F.R.G.) 489
Sleepiness on the job: continuously measured EEG changes in train drivers (EEG 01819)
by L. Torsvall and T. Åkerstedt (Sweden) 502

SHORT COMMUNICATIONS

Proximal sensory conduction in diabetic patients (EEG 01876)
by T. López-Alburquerque, A. Ortín, J. Arcaya, J. Cacho and J. De Portugal-Alvarez (Spain) 25
Peripheral origin of BAEP wave II in a case with unilateral pontine pathology: a comparison of intracranial and scalp records (EEG 01835)
by G. Curio, F. Oppel and M. Scherg (F.R.G.) 29
Strümpell's familial spastic paraplegia: an electrophysiological demonstration of selective central distal axonopathy (EEG 03256)
by A. Uncini, M. Treviso, M. Basciani and D. Gambi (Italy) 132
Intersession stability of somatosensory evoked potentials (EEG 03215)
by N.A. Shaw and V.M. Synek (New Zealand) 281
REM sleep latency during nocturnal sleep in mentally retarded infants (EEG 03301)
by M. Shibagaki, S. Kiyono and T. Takeuchi (Japan) 512

EXPERIMENTAL SECTION

MAIN ARTICLES

Cocaine effects on electroencephalographic cognitive event-related potentials and performance (EEG 02984)
by R.I. Herning, W.D. Hooker and R.T. Jones (U.S.A.) 34
Motor cortical epileptic foci in vivo: actions of a calcium channel blocker on paroxysmal neuronal depolarizations (EEG 01812)
by O.W. Witte, E.-J. Speckmann and J. Walden (F.R.G.) 43
Auditory evoked potentials to continuous amplitude-modulated sounds: can they be described by linear models? (EEG 03055)
by A.R. Møller (U.S.A.) 56
Changes in electrical activity of the brain with vigilance (EEG 01845)
by A. Belyavin and N.A. Wright (U.K.) 137
Human auditory steady-state evoked potentials during selective attention (EEG 03174)
by R.D. Linden, T.W. Picton, G. Hamel and K.B. Campbell (Canada) 145
Habituation of auditory event-related potentials: a comparison of self-initiated and automated stimulus trains (EEG 03164)
by W.T. Bourbon, K.W. Will, H.E. Gary, Jr. and A.C. Papanicolaou (U.S.A.) 160
Three-channel Lissajous' trajectory of auditory brain-stem potentials evoked by specific frequency bands (derived responses) (EEG 01768)
by M. Kaminer (Hazon) and H. Pratt (Israel) 167
Evolution of sleep structure following brief intervals of wakefulness (EEG 03148)
by S.S. Campbell (U.S.A.) 175
On the presence of a peculiar alpha rhythm in the olfactory tubercle of waking armadillos (EEG 03158)
by L. García Samartino, J.M. Affanni, E.B. Casanave, R. Ferrari and O. Iodice (Argentina) 185

On the magnetic field distribution generated by a dipolar current source situated in a realistically shaped compartment model of the head (EEG 01797)
by J.W.H. Meijs, F.G.C. Bosch, M.J. Peters and F.H. Lopes da Silva (The Netherlands) 286
Topography and cortical generators of somatosensory potentials evoked by median nerve stimulation in the cat (EEG 01762)
by J.W. Berkelbach van der Sprenkel, F.H. Lopes da Silva, A. Van Dieren and C.A.F. Tulleken (The Netherlands) 299
Impairment of the cortical and thalamic electrical activity in scrapie-infected rats (EEG 01815)
by M.H. Bassant, L. Court and F. Cathala (France) 307
Cerebral location of international 10-20 system electrode placement (EEG 03208)
by R.W. Homan, J. Herman and P. Purdy (U.S.A.) 376
Electrophysiological evidence for dreaming: human cerebral potentials associated with rapid eye movement during REM sleep (EEG 03093)
by S. Miyauchi, R. Takino, H. Fukuda and S. Torii (Japan) 383
Cerebral magnetic responses to stimulation of ulnar and median nerves (EEG 01844)
by J. Huttunen, R. Hari and L. Leinonen (Finland) 391
Variability on serial testing of pattern reversal visual evoked potential latencies from full-field, half-field and foveal stimulation in control subjects (EEG 03187)
by S.R. Hammond, S. MacCallum, C. Yiannikas, J.C. Walsh and J.G. McLeod (Australia) 401
Human auditory and somatosensory event-related potentials: effects of response condition and age (EEG 01805)
by G. Barrett, R. Neshige and H. Shibasaki (U.K. and Japan) 409
Further differences between brain-stem auditory potentials evoked by rarefaction and condensation clicks as revealed by vector analysis (EEG 03209)
by P. Coutin, A. Balmaseda and J. Miranda (Cuba) 420
Response enhancement and reduction of the auditory brain-stem response in a forward-masking paradigm (EEG 03157)
by A.K. Ananthanarayan and G.M. Gerken (U.S.A.) 427
Ketamine blockade of cortical spreading depression in rats (EEG 01852)
by N.A. Gorelova, V.I. Koroleva, T. Amemori, V. Pavlík and J. Bureš (Czechoslovakia) 440
Convergent evoked potential and cerebral blood flow evidence of task-specific hemispheric differences (EEG 03249)
by A.C. Papanicolaou, G. Deutsch, W.T. Bourbon, K.W. Will, D.W. Loring and H.M. Eisenberg (U.S.A.) 515
The effects of grating complexity on transient evoked potentials (EEG 03151)
by J.G. May and W.J. Lovegrove (U.S.A. and Australia) 521
Human short-latency auditory responses obtained by cross-correlation (EEG 03218)
by M.J. Wilson and R.A. Dobie (U.S.A.) 529
Evidence for cortical origin of the 40 Hz auditory evoked response in man (EEG 01864)
by J.P. Mäkelä and R. Hari (Finland) 539
Comparison of cat and human brain-stem auditory evoked potentials (EEG 03083)
by B.C. Fullerton, R.A. Levine, H.L. Hosford-Dunn and N.Y.S. Kiang (U.S.A.) 547
Evoked potential correlates of stimulus deviance during wakefulness and sleep in cat — animal model of mismatch negativity (EEG 01899)
by V. Csépe, G. Karmos and M. Molnár (Hungary) 571

SHORT COMMUNICATIONS

Appearance of frontal mid-line theta rhythm during sleep and its relation to mental activity (EEG 03035)
by H. Hayashi, S. Iijima, Y. Sugita, Y. Teshima, T. Tashiro, R. Matsuo, A. Yasoshima, Y. Hishikawa and T. Ishihara (Japan) 66
Contingent negative variation (CNV) influenced by preceding slow potential shifts (pSPSs) (EEG 01842)
by M. Trimmel (Austria) 71
Transverse relationships of the alpha rhythm on the scalp (EEG 03242)
by H. Ozaki and H. Suzuki (Japan) 191
Growing familiarity with the test situation augments the vigilance deficit of aged rats (EEG 03219)
by B.P.H. Poschel, P.M. Ho, M.J. Callahan and F.W. Ninteman (U.S.A.) 196
Ethanol effects on EEG spectra in monkeys: comparison to morphine and diazepam (EEG 03250)
by C.L. Ehlers and T.K. Reed (U.S.A.) 317

TECHNICAL SECTION

MAIN ARTICLES

Mapping of scalp potentials by surface spline interpolation (EEG 01764)
by F. Perrin, J. Pernier, O. Bertrand, M.H. Giard and J.F. Echallier (France) ... 75
Computer database of ambulatory EEG signals (EEG 03142)
by P.B. Jayakar, E. Brusse, J.P. Patrick, E. Shwedyk and S.S. Seshia (Canada) ... 82
A contact lens photostimulator for surgical monitoring (EEG 01821)
by G.F.A. Harding, V.H. Smith and H.C. Yorke (U.K.) ... 322
Automated sleep scoring: a comparative reliability study of two algorithms (EEG 01826)
by E. Stanus, B. Lacroix, M. Kerkhofs and J. Mendlewicz (Belgium) ... 448

SHORT COMMUNICATIONS

Elimination of EKG artifacts from EEG records: a new method of non-cephalic referential EEG recording (EEG 03130)
by M. Nakamura and H. Shibasaki (Japan) ... 89
Application of computer averaging techniques to the study of learned volitive heartbeat control (EEG 03202)
by A.M. Yellin (U.S.A.) ... 93
Scalp topography of photic evoked potentials. Application of wave form decomposition technique (EEG 03211)
by H. Shibasaki, M. Nakamura and S. Nishida (Japan) ... 200
The 'foramen ovale electrode': a safe tool to study temporal lobe epilepsy (EEG 01885)
by M. Meglio, B. Cioni, G. Cruccu and M. Inghilleri (Italy) ... 327
Microcomputer analysis techniques for evaluation of benzodiazepine effects on rat electrocorticogram (EEG 03297)
by Q.L.G. Harris, S.J. Lewis, N.A. Young, F.J.E. Vajda and B. Jarrott (Australia) ... 331
Representation of sleep stages by color density spectral array (EEG 03220)
by M. Salinsky, T. Sutula and D. Roscoe (U.S.A.) ... 579
Video EEG telemetry using an ambulatory EEG cassette recorder (EEG 01953)
by S. Wroe, G. Roberts, R. Weston, J. Gibbs and A. Richens (U.K.) ... 583

BOOK REVIEWS

The limbic system. Functional organization and clinical disorders
edited by B.K. Doane and K.F. Livingston ... 97
Two hemispheres — one brain: functions of the corpus callosum
edited by F. Leporé, M. Ptito and H.H. Jasper ... 98
Experimentelle Epilepsieforschung
by E.J. Speckmann ... 99
Synapses, circuits, and the beginnings of memory
